Frame Sliders

ZX10R 2004/5

Clutch Lever Side Assembly

- 1 Slider Assembly
- 1 Spacer
- 1 Bolt

Brake Lever Side Assembly

- 1 Slider Assembly
- 1 Bolt

Legal stuff.

Frame sliders are intended to reduce the amount of damage that would result from your bike sliding along the pavement. It is by no means going to totally eliminate damage as a result of a crash. They are not designed to sustain any major impact from a tumble or similar crashes.

Frame Slider Installation

Brake Lever Side

1. Remove bolts B. (Pic 1)
2. Place the Slider Plate, with slider attached, on the outside of the frame. (Pic 2)
3. Tighten the bolt to 32 ft pounds. (Pic 3)

Note: To ease the installation, remove the side panel.
